Frontend Developer

inovus labs, jan 2025 - Present

- Developed responsive and interactive web interfaces using HTML, CSS, JavaScript, and modern frameworks (e.g., React, Next.js).
- Implemented UI/UX designs with pixel-perfect accuracy, ensuring consistency across devices and browsers.
- Integrated APIs to fetch and display dynamic data efficiently.
- Optimized web pages for performance, accessibility, and SEO best practices.
- Collaborated with designers and backend developers to deliver seamless user experiences.
- Applied animations, transitions, and interactive elements to enhance engagement.
- Maintained and updated existing web projects, troubleshooting issues and improving functionality.

UX Designer

Purple movement , aug 2025 – Aug 2025

> Designed user-centered interfaces for web and mobile applications, focusing on usability, accessibility, and visual appeal.
> Created wireframes, prototypes, and high-fidelity mockups using Figma, Adobe XD, or similar tools.
> Conducted user research and usability testing to inform design decisions and improve user experience.
> Developed and maintained design systems and style guides for consistent branding across projects.
> Collaborated with developers to ensure seamless implementation of designs into functional products.
> incorporated modern trends, animations, and micro-interactions to enhance engagement and aesthetics.
> iterated designs based on feedback, analytics, and user behavior insights.
